

Distribution of the relics of Kateri Tekakwitha

If anyone would know where are other bone relics of Kateri Tekakwitha, please let me know and the list will be revised.

It has been known that in the past, bone relics of Kateri Tekakwitha were distributed to individual persons and presently they still have in their possession. These precious relics perhaps should be placed in Churches, especially the Churches that have her name. This would be to avoid the profane distribution and avoid the sacrilege of her relics. These are precious relics of which cures are obtained, and this alone justifies that these relics should be only guarded where is Our Lord.
